Ok. And all we could say at the briefing is that we've received the letter raising these concerns and are currently reviewing it for response.

Thanks!

I spoke with OAQPS about this, and their view is the lead to respond is OGC, with support from OECA, OAQPS, R6 and ORD to make sure we're all on the same page.
We are likely to be asked to review the response as it is developed.
John

Subject: More on Denka/chloroprene

Good morning everyone,

Just for your information, please see attached letter in which a Clean Air Act section 303 action is being. The letter writer is seeking EPA to invoke "an imminent and substantial endangerment to public health" action related to chloroprene emissions from the Denka facility. This was sent to Region 6, and we will need to work with OAR to help Region 6 respond.

Thanks,

Tina
